EDITORIAL

Dear Readers

Child's mind is a coarse grain of sand, recurring a nurturing shell of a broad spectrum of earning opportunities and experiences. It eventually gets nourished into nature's most gifted ominous pearl of creative ideas, knowledge and critical thinking that ever revolutionized the world.

I am extremely sanguine that our institute has offered itself as a shell for sheltering and fostering human minds in their raw state to be matured into empowered innovators, trailblazers and pioneers. The wheel of excellence has been steered with values and conventions.

We try to root students' talent firmly in an enabling and constructive work. Exert lovingly for their meaningful blossoming. The activity-based learning acts as a springboard for honing skills and harnessing unbound talents of young learners with unique needs.

It is believed that a thin line demarcates a good school from a truly great one. I am deeply gratified to claim that with our uncompromising ideals, constant support and faith of the parents the school aspires to create a symphony in the hearts of its young pupils, such that it exudes pure music and propels them to the exalted position that is the beginning of a wonderful dream.

A panorama of events kept unfurling to amalgamate the novices and to kindle their curiosity. These activities continuously rejuvenated them, positioning them on cloud nine.

It was quite overwhelming as one could perceive the joyous feelings of excitement, and happiness among the children, parents, and teachers at Delhi Public School, Nava Raipur.
